ATTUD

Association for the Treatment of Tobacco Use and Dependence

A professional society dedicated to the promotion of evidence-based treatment for tobacco use and dependence

ATTUD Works to Establish & Promote:

- An international network for tobacco treatment specialists
 - Standards for core competencies, training and credentialing of tobacco treatment specialists
 - Evidence-based practice across the spectrum of treatment modalities via policy, funding and system changes
 - Real-time information exchange on best practices and innovations in treatment
 - Treatment for a variety of populations including those with specific health/mental health and sociocultural concerns

Join Now Online
at
www.ATTUD.org

ATTUD Accomplishments:

- Developed the Core Competencies for Tobacco Treatment Specialists (TTS), now widely adopted by numerous tobacco treatment training programs
- Created an accrediting process for TTS training programs
- Established a database of TTS training programs to serve as a resource for those seeking training
- Collaborates with the Global Tobacco Partnership to enrich training for those who deliver treatment for tobacco use and dependence
- Serves as a reliable and respected resource for the public and professionals to improve understanding of the science behind tobacco addiction, nicotine withdrawal, and effective treatments for tobacco use
